Work History

Senior Data Technician, Allison-Smith Company LLC, 09/2017 – Present

I provide the networking and cabling installation for the Coca-Cola headquarters, corporate offices, and executive offices. I'm in charge of setting up communication rooms, installing voice and data service lines, fiber optics lines, and lighting automation control systems. I also troubleshoot an array of networking issues. I teach and share my cabling and networking knowledge with apprentice data technicians and IBEW electricians.

Data Technician, Electrician, Uptime Electric, 03/2015 – 09/2017

I provided networking and electrical services to Delta Airlines and Hartsfield-Jackson Airport. I set up communication rooms, installed voice and data service lines, fiber optics, lighting automation control systems, and electrical installations that met the customer's needs. I also preformed troubleshooting on an array of cabling/networking issues and electrical issues.

Merchandiser, Coca-Cola Bottling Co., 06/2012 - 03/2015

I handled troubleshooting and setting up phone and mobile devices for multiple merchandiser teams. I built displays with Coca-Cola products, provided customer service to various accounts, and kept customer venues organized with Coca-Cola products.
